## Summary

Recent Computer and Data Science graduate with specialized training in Business Analysis and Robotic Process Automation. Proficient in software development and automation techniques, I aim to work as an RPA Developer to design and implement efficient, scalable, and user-friendly digital solutions that improve business processes.

## Education

**Bachelor's degree in data science,** 2019 – 2023  
Faculty of Computers and Data Science, Alexandria University Alexandria, Egypt  
CGPA: 3.50/  
**Graduation Project:** Correct (Mobile and Web App) | Grade: A (Excellent)  
Developed an image-processing module using the OpenCV library to automate the correction of MCQ papers via scanner or mobile.

## Experience

**Completed Business Analysis & Robotic Process Automation Track through the Information Technology Institute (ITI) Scholarship** 03/2025 – 08/2025  
**Frontend Advanced level by React- UN Women - Egyptian Council** 07/2024 – 09/2024  
**Frontend Basics Level - UN Women - Egyptian Council** 05/2024 – 07/2024

## Projects

**UiPath-Based Solution for the RPA Challenge**  
Automated dynamic data entry on RPACheck.com with Excel input, ensuring fast and accurate form completion.

**IMDb Movie Data Extractor with UiPath**  
Automated IMDb search to extract movie details and save them to text files based on user input.  
Ask ChatGPT

**AI Chatbot Automation with n8n and Gemini API**  
Designed UiPath workflows for real-time, logic-based user input handling and filtered API responses.  
Ask ChatGPT

**Orthopedic Surgery Clinic Database**  
Analyzed customer segments and sales using Oracle SQL, ensuring data quality and extracting insights through advanced queries.

**TheBox Website Project**  
Created a responsive website with grid layout, interactive cards, and form validation.

## Certificates

- UiPath Automation Business Analyst
- Automation Business Analyst Associate Training
- RPA developer Job Profile- Maharatech

## Skills

---

### RPA & Automation Tools

- UiPath
- Power Automate
- n8n

### Frontend tools

- HTML
- CSS
- React JS

### Other Technical Skills

- Microsoft Excel
- PowerPoint

### Programming Languages

- C#
- JavaScript
- Node.js
- React
- Python
- Java

### Database & Query Languages

- SQL
- Oracle

### Soft Skills

- Quick Learner
- Self-Motivated
- Problem Solving Skills
- Team Collaboration

## Languages

---

- Arabic : Native
- English : Proficient
